

CHEMITO TIMES

Chemito Successfully Executes ITMS Contract at CTU for 398 Buses including Surveillance, VTS & Advanced Applications like VHMD & Public Transport Scheduling

Real Time Monitoring & Tracking of Fleet at Command & Control Centre (CCC), Chandigarh Transport (CTU) with Chemito Intelligent Transport System (ITS)

CTU-Chandigarh Transport Undertaking is the first State Transport Unit in India to implement end to end ITS solutions using Chemito ITS products.

Entire solution of hardware & software designed & supplied by Chemito (CIPL) to CTU with Amnex.

Chemito has facilitated a huge cost saving for CTU by driving different display boards (Hanover, Cast Master make) using Chemito make universal controller.

Launch of Chemito ITS at CCC, CTU

Bus activities can be visualized & route operations could be traced by CCC (Control Command Centre) under one roof with advanced features in Chemito ITS like Remote Live Streaming, GPS, Bus Scheduling, Next Stop Announcement.

Chemito Intelligent Transport System-Bus Driver Console

CAN Integration is also done successfully in SML buses for both AC/Non-AC variants for predictive analysis of vehicle health, breakdown, monitoring & preventive maintenance in a single project by Chemito.
