NMMT Launches 100 Aeroeagle EV Buses Powered by Chemito ITS Solution

Navi Mumbai, October 11, 2024 – In a significant move towards sustainable urban transportation, the Navi Mumbai Municipal Transport (NMMT) has introduced 100 new Aeroeagle electric buses, powered by Chemito’s Intelligent Transport System (ITS) solution. The fleet was officially flagged off by Shri Eknath Shinde, the honorable Chief Minister of Maharashtra, in a ceremony held today.

These state-of-the-art electric buses are designed to provide eco-friendly and efficient public transportation across Navi Mumbai and its neighboring regions. The integration of Chemito’s ITS solution ensures enhanced operational efficiency, real-time tracking, and improved passenger safety.

The new Aeroeagle EV buses are equipped with advanced features, including air conditioning, comfortable seating, and accessibility options for differently-abled passengers.

The deployment of these buses is expected to provide a seamless and comfortable commuting experience for the citizens.

The launch of these electric buses marks a significant milestone in Navi Mumbai’s journey towards becoming a smart and sustainable city. With the support of innovative technologies and government initiatives, NMMT is poised to
